1. Select the appropriate input on your projector for Apple TV. This can be an HDMI or RGB input.

2. Wake up Apple TV by clicking on the "Menu" button on the Apple TV remote.

3. Double-click the "Home" button on your iPad to display the Multitasking Bar.

"Home" button

Multitasking Bar

4. Swipe the Multitasking Bar from left to right to display the brightness, play, and volume controls.

Swipe from left to right

5. Click on the AirPlay button to display the AirPlay menu.

AirPlay button

6. Select the appropriate AppleTV for your room.

7. Turn "Mirroring" on.

8. Enter the AirPlay code displayed on the Apple TV screen and click OK.

9. Click away from the AirPlay window, then click anywhere on the iPad screen to exit from the Multitasking Bar.

10. The iPad screen is now mirrored to the Apple TV screen.

To disable AirPlay mirroring:

1. Double-click the "Home" button to display the Multitasking Bar.

2. Swipe the Multitasking Bar from left to right to display the brightness, play, and volume controls.

3. Click on the AirPlay button.

AirPlay button

4. Select "iPad" from the AirPlay menu.

6. Click away from the AirPlay window, then click anywhere on the iPad screen to exit from the Multitasking Bar.

7. The iPad screen is no longer being mirrored to the Apple TV display.
